

Physical Therapy Progress Report

Service Dates - From: 3/16/2013 To: 4/5/2013

PATIENT'S LAST NAME	FIRST NAME	M.I.	GENDER	DATE OF BIRTH	AGE	PATIENT #
MOUSE	MICKEY		Male	1/1/1940	73	2
PAYOR SOURCE	TYPE OF SERVICE	ONSET DATE	SOC DATE	DISCONTINUED		
Medicare B	PT	1/1/2013	3/4/2013			
FACILITY: Therapute LTC			ROOM NUMBER: 25			
PRIMARY DIAGNOSIS CODE			TREATMENT D.X. / ICD-9 CODE			
Code - Description			Code - Description			
• 486 - PNEUMONIA ORGANISM UNSP			• 781.2 - ABNORMALITY OF GAIT			

General

Was therapy frequency provided as ordered? Yes	Patient Response to Treatment This Week Patient has responded well to therapy intervention this treatment period with improved functional mobility skills in all areas. Less VC's needed during transfers and gait. Good recall of safety techniques.
Other Test Results and/or treatments provided this period: Staff and family instructed on patient status and functional mobility status. Staff educated on proper transfer training techniques with patient.	Method of Assessment for G-code Reporting • G-Code Selection: Mobility: Walking and Moving around Current: CL 60-79% impaired Goal: CI 1-19% impaired • Standardized Assessment:: Tinetti test performed with patient on this date resulting in a score of 22. Patient with a score of 15 during last Tinetti test.

Justification For Continued Treatment

Continued Skilled Intervention that is Necessary • Determine and implement mobility training techniques • Modify/Advance therapeutic modalities (gait training, strengthening exercises, etc) • Training with assistive devices • Safety training • Balance training • Other:: Staff/family education for proper transfer techniques.	Additional Justification Patient making good progress toward established goals and should be able to achieve goals.

Status of Therapy Goals

Status of Short(s)

Time Frame: 4 Weeks

Description	Baseline Status	Last Note's Status	Current Status
1. [Met]: Supine to sit min a	max a	max/mod	min a
2. [Ongoing]: Sit to stand min a	max a	max/mod	mod A with vc's for proper safety techniques
3. [Ongoing]: Increase dynamic standing balance to Fair with assistive device	Poor	Poor +	Fair - with assistive device
4. [Ongoing]: Gait training with rolling walker 150 feet with min a with improved safety and foot clearance	10 feet max a with rolling walker with poor safety and foot clearance	25 feet max/mod a with rolling walker with decreased stride	50 feet mod A with rolling walker with improved stride length. VC's for upright posture and to stay inside walker to decrease risk for falls.

Status of Long(s)

Time Frame: 8 Weeks

Description	Baseline Status	Last Note's Status	Current Status
1. [Ongoing]: Supine to sit l	max A	max/mod	min a
2. [Ongoing]: Sit to stand l	max a	max/mod	mod A with vc's for proper safety techniques
3. [Ongoing]: Increase dynamic standing balance to Good with assistive device	Poor	Poor +	Fair - with assistive device
4. [Ongoing]: Gait training with rolling walker up and down corridor ad lib feet l'y with Good safety and foot clearance	10 feet max a with rolling walker with poor safety and foot clearance	25 feet max/mod a with rolling walker with decreased stride	50 feet mod A with rolling walker with improved stride length. VC's for upright posture and to stay inside walker to decrease risk for falls.

Functional Outcome Skills
